FRIDAY, MARCH 21, 1930

No 51

Raymond Hi Lights

Last week, as you probably know, our team went to Edmonton to play basketball. They went in cars and in spite of snow and a general collapse of their sense of direction, got to Edmonton and back to Raymond with out serious mishap.

In Edmonton at the MacDonald Hotel they attended a social function of the "D. D. 40" Club where they were entertained most graciously.

On Saturday at the Arena they showed their goods to an admiring audience. All the boys were in early-season form and played as only Champions can play.

The final score was 53-33, and for the third time, the R.H.S. has Alberta's Champion H.S. basketball team.

Apparently no one was awake to greet the team when they pulled in at 2 a.m. Monday, so later in the day, the school combined to honor them with speeches punch pie and ice cream.

A clever speech of welcome was made by Mr. Redd while the nine team members and the coach sat in state on benches on the stage.

Mr. Low then gave a very interesting account of the journey telling us what they ate and whom they danced with at different parties.

Frank Weaver then proposed a toast to the team, and the school drank to their success in green punch.

Mr. Redd then announced that all team members must talk to the school while the pie almoda was being served.

"We'll call on them in order," he said, "highest to highest" as they say. Only we don't know whether to measure cross wise or up and down. But if we measure by the feet we'll hear from Wilford first Bruce followed and then the rest, who all told some amusing incident of the trip. Then Mr. Low was asked to stand and take the applause for Kenneth Hague. Ken's absence was the only fault of the whole affair. But there is this about it; Ken is so young and such a skillful player that he may safely look forward to trips to Edmonton with future H.S. Champion teams.

After lunch every one collected outside and braved the mud and possible disapproving townspeople to yell on Broadway.

We'll wager that never in his life before was Mr. Low serenaded as originally as last Monday when we tried to cheer for the coach.

Several of the boys as well as the coach, got new hats in Edmonton. Their old ones were too small after the game.

Such news as we hear: the gym floor is to be put in condition for the Prom. We know that you're all coming anyway, but aren't you glad the floor will be good. And any way this is the only High School gym floor in the province on which for three years in succession, a provincial champion basketball team has trained.

Maurice Cooper was in Cardston over the week end.

Police Magistrate J. W. Low was a Raymond visitor on Tuesday this week on official business.

Miss Jennie Van Orman left on Monday for a trip to Salt Lake City.

Elder Byron Vance has been released from his mission in England and will be home soon, and Elder David Allred who returned from Samoa some time ago and has been going to school in Provo arrived home this week.

NEW LAND MAP

The Department of the Interior has issued a new edition of a land map which shows at a glance the total number of quarter sections of Crown lands still available in each township. The map also indicates Dominion Land Offices, existing railway facilities in each district and provides the customary information regarding cities, towns and villages.

A copy of this map together with other material of interest to the prospective settler may be obtained free of charge on application to the Natural Resources Intelligence Service of the Department of the Interior at Ottawa.

New Ball Diamond

A very enthusiastic meeting of the Raymond A. A. A. was held in the Town Hall on Sunday at 3:30 p.m. with Pres C. Fawns in charge and a representative number present.

The purpose of the meeting was to select a Manager for the coming baseball season and also to talk over the moving of the diamond from the Fair Grounds back to Victoria Park in the centre of town.

Rayo Woolf was asked to outline the proposed change and the reasons for it, which was briefly as follows:—

The Fair Grounds are to far from town to get the best results from ball practice, or the best patronage at baseball games. It was also hard to keep a good diamond there. In talking the thing over with others it was deemed best to remodel Victoria Park in the centre of town, and make it so that all sports and sport work-outs except Stampedes, could be carried on there. This included the moving of the skating rink to the southeast corner of the lot and making it so that it would accommodate three tennis courts in summer; thus helping to keep it in better shape.

The low place in the Square would be filled in and the baseball diamond moved so that home plate would be in the northeast corner. Then in the diamond a 100 ynd straightaway, cinder track would be built and around the diamond a 220 yard cinder track for all track events. Part of the square will be fenced with board this year and a good grand stand will be the goal in the course of a year or so.

This plan met with the hearty support of all of the organizations represented and a committee was chosen as follows, to go ahead at once with the plan.

C. E. Fawns, Chairman, and the following: Ross Humphreys of the R.A.A.A. Paul Dahl of the 2nd Ward M.I.A., Lee Brewerton of the 1st Ward M.I.A., E. H. Price of the M.I.A. Stake Board, W. A. Keith of the High School, and T. W. Meldrum of the Town Council.

The question of a Baseball Manager was discussed and resulted in the unanimous selection of Rayo Woolf. Mr. Woolf accepted n condition that the players have a chance to choose their own Manager when the season starts. The selection of a Grounds Committee and a Gate Committee will be looked after by the Association Executive.

C. E. Fawns asked the whole hearted support of those present when Tag Days and Drivea of various kinds are put on, and announced a big Baseball Dance at the Opera House on Saturday night March 29th.

C. R. Wing pledged the support of the Stake M. I. A. in the improvement program and said they expected to have their Track and Field Meet here on May 24th.

A motion was passed to the effect that the meeting was strongly in favor of a Stampede being held in Raymond this year.

The question of honoring the "Idlers" winners of the Intermediate Division in Basketball and the High School team who are Provincial Champions was left to the Executive.

The meeting adjourned at 5 p.m.

AIR MAIL SPEEDS DELIVERY

The value of the Air Mail was demonstrated last week when a letter-posted in Winnipeg at 8:30 p.m. Thursday evening, was delivered here at 4 p.m. Friday afternoon. Less than 21 hours.

SCHOOL CLOSING

Closing exercises at the Raymond School of Agriculture will take place on the evening of Wednesday March 26, at 8 p.m. Diplomas will be presented to the graduating class, and prizes awarded to successful students. Dean E. A. Howes of the University of Alberta will be the principal speaker of the evening.

The program will be open to the public and all are cordially invited to attend.

Relief Societies Celebrate Anniversary

Celebrating their 88th Anniversary on Monday, March 17th the two Ward Relief Societies entertained in a royal manner, as is customary at this event. Starting at 8 p.m. the program was of a very entertaining type and was as follows:—

Opening song and prayer. Southern Band, whose melody may have been improved but whose willingness left nothing to be desired. Oliver McLean then gave a solo, playing his own accompaniment on the Guitlar, and this was followed by a vocal duett by Mr. McLeans two boys. Then came Mother Goose's Nursery Rhymes. Boy, oh Boy! Some of the diminutive characters of the story were there and over in make up and action. T. K. Roberts and Mrs. Blanché Scoville rendered a vocal duett and then Miss Thelma Smith entertained with a piano solo. Miss Margaret Roberts did a spiddled step dance, and then came the event of the evening "The Wedding of the Painted Doll." The costumes, the dancing and the grace of the participants would put Ziegfelds Follies on a back seat and despite their bashfulness, they had to answer an encore with part of the dance.

J. W. Evans gave a splendid reading, Mrs. L. D. King and Oliver McLean sang "Silver Threads Amore the Gold." Mr. McLean accompanying on the guitar and then a splendid little playlet, portraying the value and need of Relief Society attendance and driving home the lesson in unmistakable plainness was staged. Everyone thoroughly enjoyed this sketch which was written by Mrs. O. H. Snow.

The floor was then cleared and the crowd, and it was a crowd enjoyed two hours of dancing, during which time ice cream and cake was served to everyone, and all for 25c.

The evening was thoroughly enjoyed by everyone, and the numbers on the program represented hours and hours of work and preparation.

Everyone will look forward eagerly for the next Relief Society party.

King Motors unloaded their second carload of new Fords this week. Visit their splendid new show room and see these new models, shown in the first car show room in Raymond.

AUDITORS REPORT

Lethbridge, Alberta. His Worship the Mayor and Members of the Council, Raymond, Alberta.

Sirs:— Having completed my examination of the Books of your Municipality for the year 1929, I beg to submit for your consideration Financial Statement and Returns for the year of the form prescribed by the Department of Municipal Affairs.

There was an excess of revenue over expenditure during the year of \$5,021.74 as compared with \$1,192.86 in the previous year, the difference being accounted for by an increase in revenue of \$450.00 and a decrease in expenditure of \$1,279.00. The deficit on Waterworks Operation, which has again been assumed by General Account, was \$801.12 as against \$3,017.26 in 1928.

Collections of Municipal Taxes were \$28,097.53 as against \$21,561.76 while Taxes Uncollected were roughly \$40,000 less than at the end of the preceding year. Collections of School Taxes also increased by roughly \$5,380.00, and School Taxes Uncollected were down about \$5,000.00.

The debenture payments falling due during the year were duly met, and the total indebtedness in respect of debentures issued stands now at \$40,622.59 exclusive of interest.

It gives me pleasure to report further that the books and records were found in very satisfactory condition as a result of highly creditable efforts on the part of your Secretary-Treasurer.

Reported by,
R. W. GARDNER,
Chartered Accountant,
Auditor to the Municipality.

Visitors Day at the A. C. One Hundred Years Of Progress

Salt Lake City Utah

With the 100th Anniversary of the L. D. S. Church rapidly approaching, interest over the entire nation is shifting toward Utah, and particularly toward Salt Lake City, where perhaps as many as 30,000 people will throng to celebrate this mammoth centennial conference event, according to L. D. S. Church officials.

An exceptional representation of "Mormon" people from all wards and branches, not of the United States but of several foreign countries as well, will join in this century celebration which will continue for four days it is stated.

There will be a number of unique features connected with the centennial conference this April, according to reports which signify that many spectacular attractions will be added to offer inspiration to the largest group of L. D. S. people ever assembled in one city.

One outstanding feature, a pageant, "The Message of the Ages," depicting the history of the church since it was founded, will be presented each night and will contain nearly 1,000 persons, George D. Pyper, chairman of the drama committee, states.

Another new feature, "The Mormon Century Book," a brochure arranged in magazine style, which aims to show the achievements along various lines of the "Mormon" pioneers, and their descendants, will be distributed thru out the wards on the eve of the conference, comes the report so that every member of the church may appreciate as fully as possible the spirit of this significant occasion.

Despite the blizzard of Wednesday a good crowd was present for Visitors Day at the A. C.

Born to Mr. and Mrs. C. Asplund on Wednesday March 19th, a son. Mother and son are doing nicely.

Rosecoe Gibb returned from his home in Hill Spring last week, and is again at work in the laboratory of the Sugar Factory.

HONORABLE BANANA BUILT LIKE SAUSAGE, DIFFERENCE BEING YOU DO NOT EAT SKIN

London—The banana continues to be an object of international interest, but no one, not even its most ardent admirer, could claim that it, as a fruit, was constantly on the lips of all the world as it was in its most balmy days—the post-war era of "Yes, We Have No Bananas" fame. A Japanese schoolboy has, however, written an essay—published recently in "Howlers" by H. Cecil Hunt—which may inspire all the popular song writers and composers to revivify activity in order to place the honorable banana once more on its undiminished pedestal.

"The banana are a great remarkable fruit," the essay reads. "He are constructed in the same architectural style as the honorable sausage. Difference being, akin of sausage are habitually consumed, while it are not advisable to eat rapping of banana."

"Perhaps are also intrinsig, the following difference between the two objects. Bananas are held aloft while consuming, sausage are usually left in reclining position. "Banana are first green in color, the gradual turn yellowish. Sausage start out with indifinite color (resemble terrier cotta) and retain same hue indefinitely. Sausago depend for creation upon human being or stuffing machine, while baana are pristine product of honorable mother nature. Both article resemble the other in that neither have pit or colonel of any kind."

"In case of sausage both conclusions are attached to other sausages, honorable banana on opposite hand are joined on one end to the stem, other termination are entirely loose. "Finally, banana are strictly member of the vagitable kingdom, while affiliation of sausage is often undecided.—Christian Science Monitor.

Wednesday, March 19th was Visitors Day at the A. C. and despite the inclement weather, a large crowd braved the blizzard and took advantage of the opportunity to view the work of the students during the past year.

THE DRESS PARADE

A new feature this year was a Dress Parade, when the girls exhibited the dresses they had made during the year, by wearing them instead of having them on forms. This was very interesting and showed some splendid, and we fully appreciated the work and interest that had gone into this work, despite our inability to elucidate on the fine points of each.

With Mrs. D. L. Gilbert at the piano the following work was shown. Made over dresses by the 2nd Year Girls.

Tailored Dresses by 1st and 2nd Year Girls showing Sport Outfits Ensembles etc.

Afternoon Dresses by 1st and 2nd Year Girls. Graduation Dresses by 2nd Year Girls. All these last were white and were certainly lovely.

The parade showed a wealth of color, a wide variety of style, and showed careful and expert instruction and painstaking labor on the part of the girls.

DEPARTMENTS VISITED

Then a tour of the exhibits was made throughout the school, and because of lack of space we will have to make this rather brief.

The Sewing Department showed samples of Dyeing, tie Dyeing; Washing; Wollens; laces; etc. Booklets of Furniture; Dress making; and house planning, and articles of clothing of all sorts made by the girls. The millinery work also was here.

Then we saw samples of the Dairy products. Cheese, Butter, cream and all dairy products.

Next was a collection of bedroom furniture, listed and an approximate price for the whole thing. In another corner was samples of Plums, Apple etc. All grown on the grounds, and samples of Cuttings and larger transplantings. Booklets on Landscape Gardening, Tree planting etc. Then a display of different kinds of wheat, weed seeds, and fertilizers.

The Domestic Science exhibits were the centre of interest, and being human we hoped Free Samples of the cakes would be handed out, but no, so every article on the table was labelled Sold.

PRIZE EXHIBITS

One table contained collections of Cake, Jellies, Preserves and Candy made from Alberta Beet Sugar, and the Canadian Sugar Factories had awarded prizes for the best three, these being awarded as follows, names in order of merit.

Effie Betts, Fern Wilde, Velma Nalder.

Honey and its uses in cooking were the exhibits on another table and a full course Menu with honey in each course was exhibited as follows:—

Honey Cocktail, Breaded Pork Chops; Honey Sweet Potatoes; Honey Buttered Beets; Honey Muffins; Easter Lily Salad; Honey cherry Pudding and Sauce.

Other Products on the table in which Honey was used, were Cakes, Bread, Sandwiches and Cookies. "Bec a Bread" "From Comb to Candy" and other axioms were printed on

Continued on back page

EDMONTON COMING MONDAY

The Edmonton "Nationals" of the Intermediate Basketball League will be here for a return game with the "Idlers" Monday March 24th, in an effort to overcome the lead the "Idlers" have from the Edmonton game.

This game will not be on Saturday, this week as some people anticipate, but on Monday March 24th Watch for the bills.

The Week in the Alberta Legislature

The sixth complete week of the 1930 sittings of the Legislature of Alberta passed in comparative quiet, only one night session being held. An air of lassitude pervades the House and the members are not so constantly in their places as they were earlier in the session. Even in the press gallery where formerly four or five looked down, there is now one reporter or perhaps two. The third reading of the Wheat Pool Guarantee Bill brought on an unexpected flurry, the new School Bill aroused mild interest, but much of the time was spent in the drudgery of committee. The Security Frauds Prevention Bill, the Parks Bill, the Mines Bill, the charters of Drumheller and Wetaskiwin made progress; the report of the Red-distribution Committee was accepted; and two important motions were passed; the Gibbs motion on National Unemployment Insurance, and the Shaw motion for consideration of the use of the jury more extensively in civil cases.

On Monday a compromise motion asking for a conference between federal and provincial authorities to consider National Unemployment Insurance was passed unanimously. The original motion which would have asked the Dominion government to devise a scheme was introduced by C. L. Gibbs, Labor, Edmonton, but amendments were offered by J. T. Shaw and the Premier.

J. T. Shaw Lib, Bow, Valley in a motion introduced Tuesday, urged that the Jury Act should be amended to prevent the "whittling away" by judicial decision of the right of trial by jury in civil cases. After the resolution was re-worded to please the Premier and the Attorney-General, it was passed without opposition. The Attorney-General will report on the question at the next session.

The Provincial Parks Bill which will provide for the purchase of historic and recreational sites in the Province and will set up a Parks Board to administer this Act, passed through committee. Apparently Alberta has many historical sites worth preserving if we judge by the number of suggestions made by the members. An interesting proposal was the one that Fort Edmonton might be rebuilt.

The House did not meet on Tuesday till 4:30 to permit the members to attend the funeral of Mrs. J. R. Love, wife of the member for Wainwright. Mrs. Love was very well known in Edmonton and to C. G. I. T. Girls throughout the Province.

The Wheat Pool Bill was re-introduced into Committee to insert a clause accepting property of the Alberta Pool as additional security. Mr. Shaw, the Liberal Leader, took the opportunity to suggest a clause forbidding the Pool to buy wheat on option. He was strongly supported by D. M. Duggan, the Conservative leader. The government stood firm however, and the bill went through. On Wednesday, the Lieut.-Governor paid a visit to the House to give the royal assent to the Wheat Pool Guarantee Bill and to seven others then ready.

The Security Frauds Prevention Bill also passed the test of Committee of the Whole House. Except for a clause or two it is now ready for third reading. The Clause which permits the crown to call an accused person to testify against himself was opposed by J. T. Shaw as being contrary to the principles of English law. The Attorney-General backed by the Minister of Education contended that the change was necessary.

The report of the Committee on Red-distribution tabled earlier in the week was accepted unanimously on Thursday. The impression seemed to be that the committee had handled a ticklish business rather well. No cry of gerrymander was raised as at the last redistribution. The Chairman was W. G. Farquharson, of Ribstone; the Liberals were represented by Geo. Webster, Labor by F. J. White, and the Conservatives by Col. Weaver. A bill embodying the resolutions will be brought in next week. Five new constituencies are to be formed but since four old ones are to be made into two the total will be increased by only three making 3. Nanton, now re-

THE NEW TOWN HALL

While no definite announcement has been made regarding the new Town Hall, it is fully expected that as soon as spring is here the contract will be let and work started.

We have already voiced our ideas in this column regarding the value of a Town Hall and we believe that generally speaking, citizens of Raymond are in favor of this enterprise and are aware of the prestige this would give the town as having a place for public meetings, elections, etc.

Elsewhere in this issue we have published a letter from R. W. Girdner Auditor to the Town commenting very favorably on the financial condition of the town. In view of this very good financial report that was published for 1929 and the present condition of the books it is not unreasonable to expect that as the Council pointed out last fall, the building can be erected without any raise in the mill rate.

In view of this and the letter that is published this week, we are sure that the Council can undertake the erection of this much needed civic improvement with the wholehearted support of every taxpayer in the Municipality.

BABY MINE TAKES WELL

Playing to a good-sized crowd last night, the Stake M.I.A. play "Baby Mine" was well received and well put on by the players.

A comedy, which provided plenty of laughs and yet was of an entirely different type, the audience was not only entertained but surprised at some of the turns of the story.

Geo. Brewerton the Director, certainly is deserving of praise, as is every member of the cast, as it was a show which contained an extraordinary amount of acting, and this was well carried on without any hitch or embarrassing pauses.

The play is certainly worth the patronage of everyone.

FUNERAL for MRS. CHRISTENSEN

Funeral services over the remains of Mrs. P. J. Christensen were held in the Stake House on Sunday, Mar. 15, at 3 p.m. with Bishop J. H. Walker in charge.

The speakers were Jas. S. Anderson, J. W. Evans and Chas. B. Strong, who all spoke of the splendid characteristics of the deceased.

Special musical numbers were: Duett "Cast Thy Bread Upon the Waters," by W. C. Stone and Mrs. Blanche Scoville. Vocal Solo: "One Sweetly Solemn Thought" by T. K. Roberts. Appropriate songs were rendered by the choir.

A large crowd was present to pay their respects to the deceased lady and the floral offerings were profuse. Interment was made in the local cemetery a large cortege following the remains to its resting place.

MILK AND THE CHILD

All mammal babies, human and otherwise, live the first few weeks or months of their life on milk alone. It is a complete food in itself. It contains all the constituents necessary to preserve life, so that it is a very necessary part of the daily diet, especially for children. Yet there are children who do not drink milk—children one will say of poor homes where the financial circumstances do not permit of milk. That is so, unfortunately but there are other children who are not given milk, not because it is impossible to buy it but because the parents do not know enough to give it, or knowing, are too lazy to make the effort to make the milk palatable.

The winter has seen on too many occasions a tin of Neatle's milk on farm house dining tables. The one place where fresh, rich milk should have been forthcoming.

The young stock were given milk, calves, pigs, turkeys and chickens, even the cats, but the farmers children were fed from a tin. Milk is so necessary and can be given in so palatable ways, that all children can eat and enjoy. It is a very short sighted policy to deprive the growing boy or girl of a food that assists so materially in that growth.

Why give more thought to the young stock than to your boy or girl? Literature on milk and milk dishes can be obtained free from the Canadian Red-Cross, 407 Civic Block, Edmonton.

Here and There

(482)

The bull sale at Kamloops this year is scheduled for March 19 and 20. The show is becoming an important event in western livestock records. A big list of Alberta entries has been received.

The Maritime Livestock Marketing Board have extended their purchasing plan so that now farmers' clubs and associations may purchase feeds at a considerably lower price than formerly. Several carloads of feed have already been ordered.

The directors of the Canadian Pacific Railway have decided to apply to Parliament for an amendment to the company's charter permitting it to change the par value of shares of its ordinary stock from \$100 to \$25 per share with the exchange of one share of the old stock for four shares of the new. This action has been dictated by a desire to place the company's shares within the reach of investors of moderate means and thus increase the number of its shareholders, particularly in Canada.

Miss Doris Parkes, of Vancouver becomes "Her Majesty" of the 1931 Baffin annual winter sports carnival, following her election as Queen at the recently concluded gathering at the famous mountain resort. She won against rivals from Calgary and Australia and was crowned amid colorful pageantry in the closing hours of the carnival.

"Not how much land settlement work, but how good" was enunciated as the policy of the Canadian Colonization Association by W. M. Neal, general manager of western lines, Canadian Pacific Railway, at the annual dinner of officials of the organization held at Calgary recently. Mr. Neal said that during the past five years the association had settled 4270 families on 844,269 acres at a purchase price in excess of \$38,000,000.

The largest terminal grain elevator at any port on the seven seas has recently been put into operation at Vancouver by the Alberta Wheat Pool. It has a capacity of 5,150,000 bushels and is known as Vancouver Pool Terminal No. 1. During the crop year ended July 31, 1929, Vancouver shipped 96,138,218 bushels of grain as compared with 79,714,512 and 34,415,653 in the two previous years.

More than \$50,000,000 will be expended on new equipment, new branch line construction and improvement to existing equipment and roadbed by the Canadian Pacific Railway during 1930, according to an announcement made recently by E. W. Beatty, chairman and president of the company. Of this huge sum, \$14,000,000 will be expended in new equipment and conversion and improvement of existing equipment; \$3,000,000 in telegraphs; Canadian Pacific hotels from coast to coast will benefit by \$3,500,000; rail facilities in the west will account for \$10,000,000 and \$7,500,000 will go on expenditures for eastern Canada lines. The fifty millions will include \$9,250,000 for maintenance during 1930, but does not include large expenditures on ocean steamships, now in hand, and on immigration work.

SILOED BEET PULP IS SUPERIOR TO CORN SILAGE IN FATTENING LAMBS

Bozeman, Mont.—A report of the experimental feeding of lambs and the using of sugar beet by-products at the Huntley branch station of the State Experiment Station at Huntley, Montana, indicates that siloed beet pulp is superior to corn silage. Market conditions were such that only one of the 10 lots of lambs made a margin of profit above lamb and feed cost at the end of the 110 day feeding period. The experiment will be repeated to test further the results of the ration.

There were 10 lots of lambs totaling 296. Each lot was fed a different ration for the period between October 22, 1929, and February 9, 1930. The lambs used were wether lambs with a predominance of Rambouillet breeding. The feed lots were protected from northeast, north and west winds.

Lot No. 5 was the only lot which showed a margin of profit. This lot of lambs was fed a ration of barley, alfalfa hay and beet pulp. The margin over lamb and feed costs was 12c per head. Lot No. 8 was fed corn in the place of barley and cottonseed cake and beet molasses added to the ration. The lambs in this lot were appraised at 25c per pound above the St. Paul top but the added cost of feed wiped out the gain and resulted in a loss of 20c per lamb.

Cull beans proved to be comparatively low value in fattening lambs. The lot using barley, alfalfa and cull beans showed a loss of 74c per lamb. Beet tops reduced the loss to 55c per head.

The greatest actual gain in weight was in the lot which received a ration of corn, alfalfa, pulp, cottonseed cake and molasses. The lambs in this lot made an average gain of 42 pounds but again the feed cost was too high for profit with an average cost of

PROPORTIONAL PLAN MAY BE ADOPTED FOR CITY CONSTITUENCIES

Preparatory to the forthcoming general election the Government is seriously considering legislation which introduces proportional representation in all the larger cities of the Dominion.

In Montreal, for example, the plan wouldn't be likely to effect the present ratio of representation where Conservatives have three members. In Toronto, however, where Liberals have no Federal members proportional representation would probably give them two, if not three members. Cities like Halifax, Hamilton and St. John which now return two Conservatives might with the inclusion of some more rural territory send two Conservatives and one Liberal on the proportional basis. Vancouver too, might crowd in a Liberal to displace the solid phalanx of Tories who now represent the city and its environs.

The subject, it is said, has been thoroughly discussed by the Government with its Ontario supporters and they favor it for Toronto and Hamilton. Quebec members do not think they will lose by it and in the other cases there is nothing to lose. Most Progressive members are on record in favor of the proportional system while Conservative members would see in its introduction at this time nothing but a bit of well calculated political strategy.

News Notes

Phone us your news items. Thanks.

There is a big time in store for everyone at the Baseball Dance at the Opera House. Sat. Mar. 29th.

C. W. Brewerton returned home on Thursday night after an extended visit with relatives and friends in Utah.

"I Wish I'd Known"

There's always a new experience ahead---something you haven't done before and which calls for a decision.

You become engaged---and immediately you are called upon to decide on the purchase of many, many things you never bought before.

You marry---and furniture, draperies' silverware, china, talking machines, oil-burners, gas stoves, automobiles claim your dollars and call for your choice.

A baby comes---and again you face a new experience in purchasing clothes and powders and blankets; in buying a crib, a baby-carriage, food, toys.

Next--- what school? For the years pass incredibly fast. Once more, a new decision.

Every room in the house requires a choice. Every meal served in your dining-room results from your having decided on what to serve.

Every day confronts you with a multitude of possibilities from which you must select those which make life happier and better and make the dollar go farther.

How on earth are you going to make those decisions? How can you know what you want and what you don't want? How can you buy to such advantage that you'll seldom, if ever, have occasion to use that futile phrase "I wish I'd bought something else"?

Read the advertisements---read them carefully. The advertisements are an encyclopaedia of news and information on the things you want and need.

"Idlers" and R.H.S.
 Both Victorious

Sugar City "Tri" Wins Inter-Colleg
 Title; Idlers Get Lead Of 3

(Lethbridge Herald)

Edmonton, March 17—North and south clashed here Saturday afternoon and evening in the biggest basketball tourney ever staged in the province, ten teams being in action and Alberta championships being at stake. The north had the edge at the end of the day's play, three Edmonton teams finishing up on the heavy end of the scores, while victory perched on southern banners on a couple of occasions. The result in detail, were:—

Raymond High School 53, Edmonton Victoria High School 33, provincial inter-college championship final. Raymond Idlers 35, Edmonton National Home Furnishers 27, first game home and home series for Alberta men's intermediate title.

Both Raymond teams kept up the reputation of the Sugar Belt town by crashing through with impressive wins, and showed the results of expert coaching. The High School title goes to Raymond by virtue of a 53:33 point win, and there is a very good chance that the intermediate men's championship will eventually go to the Idlers of the same town. They have an 8 point lead over the Edmonton Nationals, and on their own floor should be able to hold that margin in the second and deciding game.

Intermediate Line-up and Score
 Raymond: O'Brien, 19; Kirkham 8; Kenny, 1; Hawkins, 1; Strong, Fairbanks, Hague. Total 35.

WORK WANTED

Experienced Tractor man wants job for Summer. Inquire at U. G. G. Elevator.

LIVESTOCK SHIPPERS MEET

I. B. Roberts was in Lethbridge one day last week attending a Convention and a banquet and meeting of the Southern Alberta Livestock Co-op. The afternoon was spent at the stockyards, where Mr. Freeburn, government grader from Edmonton, gave them some splendid pointers on hog grading and deciding on the different types.

In the Marquis Hotel in the evening a very successful banquet was enjoyed which was sponsored by the Livestock Co-op.

Mr. Roberts is very optimistic regarding the livestock industry and is looking for a decided increase in shipments from Raymond, so much so that added facilities will likely be put here to handle the shipments during the coming summer.

Good half section, well improved, 4 miles west of Magrath station, at \$56.00 per acre. Good spring, 1 roomed house and good outbuildings. Well fitted for wheat, dairying and beefs. 75 acres summer, low good, and clean, \$4,000 cash, balance one third of crop and fully delivered. Must be quick sale.
 Phone or See A. O. RICH, Magrath, Alberta.

EARLY DISCOVERY MEANS EARLY RECOVERY

In the year 1798, Jenner announced his discovery that smallpox could be prevented by vaccination. Since that time, due to progress in our knowledge concerning the causes of diseases and their manner of spread, other diseases have been added to the group which may be prevented. That these diseases still occur is therefore due to any lack of knowledge of means for their prevention, but not to a failure to use and apply the information.

There exist, unfortunately many diseases which we do not know how to prevent, or which we are only able to control partially. The possibility of prevention in this group are limited or do not exist, because we do not know how to proceed to avoid the occurrence of these diseases. The time will come when the veil of mystery which now shrouds them will be pierced by the bright light of science. In the meantime, they show us when they do occur by the best means at our disposal. In practically all cases, this implies proper treatment at the earliest possible moment. It is the earliest stages of disease that medical science has the most to offer. At that time there is the best chance for cure. At that time too, there is the greatest opportunity for the prevention of further damage or of the possibility of allowing the condition to become chronic.

FASCINATING LINKS

Ottawa, Ont., March 10 (Special to the Recorder) Tracing back to the time of the Chippewyan Indians there are a few extremely interesting relics to be seen at the Dominion Archives. In a case is the sash of a deep American Beauty shade, with the silver wristlets and armlets which were worn by Rev Henry P. Chase who was the hereditary chief of the Chippewyan band of Indians near Coburg. These were worn by Rev Chase on official occasions when he was with his band of Indians.

The armlets and wristlets are deep and of silver the one worn just above the elbow and the other at the wrist. (Another interesting bit of history which is recorded at the Archives is an armlet which was worn by an Indian, made of a heavy metal, and which was designed to carry scalp. A portion of a scalp is in the possession of the Archives with the accompanying armlet.) On the wristlet which belonged to Rev. Chase was engraved the British coat of arms.

In the same case is a large silver medal which was worn by his grandfather in the war of 1812 and a small silver medal presented Rev. Chase when King Edward VII visited Sarnia as Prince of Wales.

The articles were donated the Dominion Archives by his daughter, Miss Mirnie A. Chase, of Sarnia.

Mrs. Fanny Litchfield returned home Wednesday morning after spending a week with her parents in Cardston.

The new Chevrolet Garage unloaded a carload of new chevrolts this week. Five standard sedans and a coach. They're splendid looking cars.

THE WEEK AT EDMONTON

(Continued from front page)

presented by D. H. Gairbairn, U.F.A., and Claresholm, G. B. Walker, U.F.A., will be united as will Okotoks and High River now represented by the Hon. Geo. Hoadley and Sam Brown, respectively. Calgary and Edmonton will each gain one seat and three new ones will be carved out. Clover Bar will take in parts of the present Edmonton, Leduc, Victoria and Camrose; Drumheller, parts of Hand Hills, Bow valley, and Didsbury; and North Peace River, consisting of the district north of the Peace River. Other minor boundary changes may be made. No great opposition to the bill may be expected though there may be criticism because the number of members is increased rather than decreased.

The Mines Bill now ready for the Committee stage was held over till next week to give the members a chance to study the clauses likely to cause argument. The Labor members expect to introduce certain amendments.

The new School Bill, too, will undergo discussion next week. This long expected bill was introduced by the Minister of Education Friday afternoon. Mr. Baker reviewed the history of the bill, the educational conditions in the province, and what he hoped to accomplish by means of the new bill. It will be remembered that a school bill containing some startling innovations was introduced last year with the object of bringing the changes to the notice of the people. The bill as expected aroused a great deal of discussion and some features, particularly that of establishing a general board for the province, met a storm of opposition. The bill now introduced is primarily a consolidation of Alberta school law but it also opens up a way for the improvement of educational administration in the province. The general board is of course not provided for in the act but there is provision for the establishment of the divisional boards on a voluntary basis. A group of rural districts may vote to form a division as consolidated districts are now formed. A superintendent and supervisors will then be appointed by the Minister, these officials to be paid out of the general grant to the districts. The divisional boards will hire teachers and pay them; they may determine salary schedules and may provide for rural high schools. Physicians and nurses may also be appointed.

The province-wide "blanket" tax will not be enacted but a way to help poorer districts has been found.

An amendment to the School Grants Act now before the Legislature provides for "equalization grants." There will be large enough to permit a divisional board to finance on a minimum levy of eight mills, the average school tax for the province. The suggestion made during the last two weeks that inspectors should be called in to decide disputes between boards and teachers does not appear in the act.

VISITORS DAY AT THE A. C.

Continued from front page

cards on the table.

We then visited the Laboratory, where tests and lessons in Chemistry are carried out and seen some of the Fort Mc Murray Tar Sands, ore from the Trail Mines at B. C. and a great many other interesting exhibits.

In the Mechanical Arts building were displayed Blacksmith and Oxy-Acetylene work of both First and Second Year Boys, the tractors and engines on which they receive their lessons in Farm Mechanics, and in the Carpenter Shop a variety of articles in joining, cabinet making and heavier carpentry that spells extreme usefulness to the farmers of tomorrow.

Then the barns and feed corrals were visited and here were facilities for practical lessons in the feeding and care of all kinds of livestock.

Through all departments in all of the work we were impressed with the practical and useful nature of it, and its value to the everyday work of the students. When the individuals who make up the student body have scattered far and wide, the lessons they learned will still be assisting them. Who can place a value on this teaching.

The International Dog Sled Derby at Quebec

Prizes aggregating \$4,250 will be among the trophies to be competed for in the International Dog Sled Derby to be held at Quebec City, February 20-22. Teams entering will cover a course of about 40 miles each day making a total of around 121 miles in all. This is the high light in the Quebec Winter Sports season beginning late in December and continuing until March. The event terminates with the Dog Derby Masquerade Ball at the Chateau Frontenac which hostelry is headquarters of the sports season. All the most prominent dog mushers of the continent figure or have figured at one time or another in the Derby and it is generally regarded as the biggest thing of its kind in America. Since 1922 when the

contest had its inception, times have been consistently cut down. In that year the course was completed in 15 hours, 37 minutes, but last year Leonard Seppala, hero of the dash to Nome, made it in 11 hours, 56 minutes, 33 seconds. Lay-out shows Chateau Frontenac; upper inset, Emil St. Coddard, three-time winner of the Derby; lower inset, Leonard Seppala, last year's winner in record time.
